

General Information Bulletin on Undergraduate Admissions

A. Studying at U.P. Open University

The UP Open University (UPOU) is the Philippines' national center of excellence for open and distance learning and the national e-learning competency center. It was established on 23 February 1995 as the fifth constituent university of the University of the Philippines System, with the mandate to provide Filipinos everywhere access to quality higher education through innovative methods of teaching and learning that are designed to be responsive to their needs as well as to national development needs.

UPOU employs the online distance education (DE) mode of teaching and learning. The key features of this mode of study as practiced at UPOU are:

- Students and teachers are physically separated from each other. They do not meet face-to-face in a physical classroom.
- Students undertake guided independent study of carefully selected as well as specially designed learning materials in various media – print, video, and multimedia.
- The interaction between teachers and students, takes place online, in a virtual classroom. Other forms of communication between teacher and student are email, text/chat, and video conferencing.
- Examinations are proctored sit-down exams conducted at designated testing venues.

B. UPOU's Undergraduate Program Offerings

UPOU offers three undergraduate programs, as follows:

- Associate in Arts (AA)
